## **Reconstruction of Frederick Street**

Date and Time: Wednesday, May 14 4:00 pm - 5:00 pm

Address: Cavan Monaghan Municipal Office - 988 County Road 10, Millbrook, ON L0A 1G0

The Township of Cavan Monaghan is planning to reconstruct Frederick Street as shown on the attached photo. The study area currently has a rural cross-section with numerous drainage issues and poor pavement conditions. The water and drainage infrastructure in the study area is nearing the end of its service life and requires replacement in order to provide reliable services to residents. The purpose of this project is to replace the watermain and to reconstruct the road.

A Public Information Centre (PIC) will be held on **Wednesday, May 14, 2025 from 4:00 p.m. to 6:00 p.m.** at the **Cavan Monaghan Municipal Office located at 988 County Road 10, Millbrook, ON.** The purpose of this PIC is to provide information about the proposed scope of the project, present plans showing the prop

osed improvements, and receive input about any local issues within the study area. The PIC will be a drop-in format with displays showing the proposed work. Staff from the Township and the Consultant Company will be on hand to answer any questions. Subject to comments received and the receipt of necessary approvals, the Township intends to proceed with the construction of this project in the summer/ fall of 2025.

As part of this project, the Township will be replacing the watermain and all water services within the road allowance. Water services within the road allowance will be replaced with a PEX (polyethylene) material. The Township will also be replacing the sanitary sewer laterals up to the property line, as well as improvements to the storm water drainage within the road allowance. Homeowners who wish to replace their water service and/or sanitary sewer lateral will be responsible for the cost of installation on their private property. Having a Contractor onsite for the road reconstruction will provide an opportunity for cost savings on installation.
